You are about to purchase a product that is not simple and may be difficult to understand

What is this product?

Type

SICAV

Objectives

This Product is actively managed. The benchmark MSCI World NR is used for performance comparison only. The Product is not benchmark constrained and its performance may deviate significantly from that of the benchmark. The Product seeks to increase the value of its assets over the medium term by investing in shares issued by companies that operate in environmental markets. Environmental markets include, but not limited to, Renewable & Alternative Energy, Energy Efficiency, Water Infrastructure & Technologies, Pollution Control, Waste Management & Technologies, Environmental Support Services, and Sustainable Food. It may be invested in Mainland China shares restricted to foreign investors such as China A shares which can be listed on a Stock Connect or through a use of a specific license granted by the Chinese authorities. The investment team applies also BNP PARIBAS ASSET MANAGEMENT's sustainable Investment Policy, which takes into account Environmental, Social and Governance (ESG) criteria such as but not limited to reduction of emissions of greenhouse gas, respect of human rights, respect of minority shareholders rights, at each step of the investment process of the Product. The Product follows the Sustainable Thematic approach which means that the Product invests in companies that provide products and services providing concrete solutions to specific environmental and/or social challenges, seeking to benefit from future growth anticipated in these areas while contributing capital towards the transition towards a low-carbon, inclusive economy. The approach is implemented in order to consistently eliminate at least 20% of the investment universe being companies conducting significant part of their business in environmental markets prior to applying ESG filters. An extra-financial strategy may comprise methodological limitations such as the ESG Investment Risk as defined by the asset manager. Incomes are systematically reinvested. Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

Intended retail investor

This Product is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least [textrhpperiod] years.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

The risk category is justified by the investment mainly in Stocks and Shares, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.

For additional details regarding the risks, please refer to the prospectus., Risk related to investments in Mainland China, Operational and custody risk

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment. However, you may benefit from a consumer protection scheme (see the section 'what happens if we are unable to pay you'). The indicator shown above does not consider this protection.

Performance Scenarios

The figures shown include all the costs of the product itself. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years.. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 2012 and 2022.

The moderate scenario occurred for an investment between 2012 and 2022.

The favourable scenario occurred for an investment between 2012 and 2022.

This product cannot be easily cashed in.

Recommended Holding Period: 5 years			
Exemple Investment: 10 000 €			
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	4 330 €	1 340 €
	Average return each year	-56,7%	-33,1%
Unfavourable	What you might get back after costs	7 870 €	4 530 €
	Average return each year	-21,3%	-14,6%
Moderate	What you might get back after costs	10 670 €	14 610 €
	Average return each year	6,7%	7,9%
Favourable	What you might get back after costs	15 040 €	17 840 €
	Average return each year	50,4%	12,3%

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

These figures do not include the product costs.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- 10 000 euros is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	229 €	1 755 €
Annual cost impact (*)	2,3%	2,5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10,4% before costs and 7,9% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of Costs

		Annual cost impact if you exit after 5 years
One-off costs upon entry or exit		
Entry costs	We do not charge an entry fee.	0,0%
Exit costs	We do not charge an exit fee for this product.	0,0%
