What is this product?

Type

SICAV

Objectives

This Product is actively managed. The benchmark Refinitiv Convertible Global Focus (Hedged in EUR) RI is used for performance comparison only. The Product is not benchmark constrained and its performance may deviate significantly from that of the benchmark. The Product seeks to increase the value of its assets over the medium term by investing in convertible bonds issued by companies from all over the world or by getting exposure to such asset class through the use of fixed income instruments and financial derivative instruments. The investment manager aims to optimise the risk-return characteristics of the Product by investing in «mixed convertibles», avoiding convertible bonds that behave like pure bonds or pure equities. The Product may be exposed to Mainland China securities. The Product may be exposed to emerging markets up to 30% of its assets, including exposure to China. After hedging, the exposure to currencies other than USD may not exceed 25%. Environmental, social and governance (ESG) criteria contribute to, but are not a determining factor in, the investment manager's decision making. Incomes are systematically reinvested. Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus. This share class aims at hedging the portfolio return from USD to EUR.

Intended retail investor

This Product is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 4.0 years.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 4 years.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

The risk category is justified by the investment in convertible bonds that are hybrid Products with both equity and debt components.

For additional details regarding the risks, please refer to the prospectus., counterparty risk, credit risk, risk linked to derivatives, liquidity risk, operational risk

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment. However, you may benefit from a consumer protection scheme (see the section 'what happens if we are unable to pay you'). The indicator shown above does not consider this protection.

Performance Scenarios

The figures shown include all the costs of the product itself. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years.. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The favorable scenario occurred for an investment between 2017-02-28 and 2021-02-26.

The moderate scenario occurred for an investment between 2017-02-28 and 2021-02-26.

The unfavorable scenario occurred for an investment between 2017-02-28 and 2021-02-26.

This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you do not have a guarantee.

Recommended Holding Period: 4 years			
Exemple Investment: 10 000 €			
Scenarios		If you exit after 1 year	If you exit after 4 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	7 380 €	5 560 €
	Average return each year	-26,2%	-13,6%
Unfavourable	What you might get back after costs	7 550 €	8 090 €
	Average return each year	-24,5%	-5,2%
Moderate	What you might get back after costs	9 640 €	10 880 €
	Average return each year	-3,6%	2,1%
Favourable	What you might get back after costs	13 580 €	13 620 €
	Average return each year	35,8%	8,0%

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

These figures do not include the product costs.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10 000 euros is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	485 €	1 191 €
Annual cost impact (*)	4,9%	2,7%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4,8% before costs and 2,1% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of Costs

		Annual cost impact if you exit after 4 years
One-off costs upon entry or exit		
Entry costs	3,00% of the amount you pay in when entering this investment.	0,8%
Exit costs	We do not charge an exit fee for this product.	0,0%
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1,64% of the value of your investment per year. This is an estimate based on actual costs over the last year.	1,7%
Transaction costs	0,22% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	0,2%
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0,0%
