The Commissariat aux Assurances (CAA) is responsible for supervising BPCE Life in relation to this Key Information Document.

What is this product?

Type

SICAV

Objectives

The Product has a sustainable investment objective which is to allocate the capital towards sustainable economic models with environmental and/or social benefits by investing in bonds or equities issued by companies that contribute to the achievement of UN Sustainable Development Goals (SDGs) and/or reduces the risk of not achieving one or more of the UN SDGs. The Product will seek to invest in bonds or equities issued by European companies, while systematically including Environmental, Social and Governance ("ESG") considerations, with financial performance measured against the Composite index: 50% MSCI Europe Net Dividend Reinvested + 50% Bloomberg Barclays Capital Euro Aggregate Corporate Index over the recommended minimum investment period of 3 years. The Investment policy of the Product is to invest in bonds and equities issued by companies benefiting from long term financial growth outlooks and with high environmental, social and governance standards.

Intended retail investor

The Product is suitable for institutional and retail investors who are looking for an exposure to the European companies whose businesses include activities related to sustainable investment themes via equity and fixed income investments; can afford to set aside capital for at least 3 years; and can accept capital losses.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

These risks are materially relevant to the fund but are not captured by the SRI, counterparty risk, credit risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment. However, you may benefit from a consumer protection scheme (see the section 'what happens if we are unable to pay you'). The indicator shown above does not consider this protection.

Performance Scenarios

The figures shown include all the costs of the product itself. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product a suitable benchmark over the last 10 years.. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment (in reference to benchmark: 50% MSCI EUROPE INDEX NR, 50% BLOOMBERG EURO AGGREGATE CORPORATE INDEX TR EUR) between 2021 and 2023.

The moderate scenario occurred for an investment (in reference to benchmark: 50% MSCI EUROPE INDEX NR, 50% BLOOMBERG EURO AGGREGATE CORPORATE INDEX TR EUR) between 2014 and 2017.

The favourable scenario occurred for an investment (in reference to benchmark: 50% MSCI EUROPE INDEX NR, 50% BLOOMBERG EURO AGGREGATE CORPORATE INDEX TR EUR) between 2018 and 2021.

This product cannot be easily cashed in.

Recommended Holding Period: 3 years			
Exemple Investment: 10 000 €			
Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	3 740 €	4 920 €
	Average return each year	-62,6%	-21,0%
Unfavourable	What you might get back after costs	7 790 €	8 210 €
	Average return each year	-22,1%	-6,4%
Moderate	What you might get back after costs	9 890 €	10 270 €
	Average return each year	-1,1%	0,9%
Favourable	What you might get back after costs	12 550 €	12 940 €
	Average return each year	25,5%	9,0%

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

These figures do not include the product costs.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- 10 000 euros is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	639 €	1 432 €
Annual cost impact (*)	6,4%	4,5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5,4% before costs and 0,9% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of Costs

		Annual cost impact if you exit after 3 years
One-off costs upon entry or exit		
Entry costs	3,00% of the amount you pay in when entering this investment.	1,0%
Exit costs	We do not charge an exit fee for this product.	0,0%
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1,45% of the value of your investment per year. This is an estimate based on actual costs over the last year.	1,5%
Transaction costs	1,47% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	1,5%
Incidental costs taken under specific conditions		
Performance fees	0,47%. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	0,5%
